

# safety training courses

Survival Systems Industrial Uk Ltd., as part of the Survival Systems Group, has gained international recognition and acceptance as a world leader in the development of Confined Space Rescue and Safety Training procedures. Our safety training programmes closely match the requirements of the customer, and comply with current U.K. legislation. Our practical training process combines theory and hands-on approach designed for promoting better work habits on the part of both workers and rescue teams. Safety training for confined space is conducted on site utilising our mobile industrial rescue trainer (MIRT) where all confined space emergency and non-emergency procedures can be recreated in a safe environment. Survival Systems Industrial UK has been operating in Britain since 1996.

## Courses:

- 4 Confined Space Awareness
